### **How to use Green Hair**

Green Hair Ayurvedic herbal oil strengthens your hair follicles. Gently massage the oil on to your scalp and leave it there for just 45 minutes. Continue this for just seven days and you will find visible advantages.

If the dandruff is due to some underlying conditions like 'seborrheic dermatitis', it may take up to 30 days before you can eliminate the dandruff problem.

Since it nourishes your hair, Green Hair also can promote hair growth and prevent premature graying. If you have any of the hair problems mentioned above, try this Ayurvedic herbal remedy.

Unlike most other cosmetic products you buy, Green Hair oil is free from any kind of chemicals. This oil contains active components derived from herbs. The herbs used are:

- Aloe Vera gel
- Lawsonia inermes
- Eclipta alba
- Phyllanthus emblica
- Bacopa monnieri
- Hydrocotyle asiatica
- Coconut oil and
- Cummins oil

The herbal components nourish the hair follicles. The oils will take the nourishments to the depths of hair follicles. Thus this is the most efficient herbal formulation you can get to protect your hair.

Degeneration of hair follicles and fungal attacks are the prime causes of hair problems. With GREENHAIR, you have a natural solution to such problems.
