

## **Resproma – Asthma Cure, Easy Respiration with Proven Ayurvedic Herbal Supplement**

If you are suffering from asthma, respiratory diseases or allergies, you will know how frustrating, tiring and worrisome life can become at times. If someone close to you, like your child is suffering from serious asthma or respiratory conditions, you will certainly lose sleep. Because, you love your kids, you look for ways to help him/her get the best life and lifestyle possible. However, chronic asthma conditions stay with kids for many years, even into their adulthood.

If you don't suffer from asthma, lucky you. If you or someone you love has this problem, it will be a terrible thing. You wait for a miracle to happen. You eagerly wait for that moment, which takes away the asthma forever. Isn't it wonderful that you can breathe without difficulties. Isn't it wonderful that you do not have to worry about difficult breathing? Luckily, there is one such option available today. It is not widely advertised or promoted through mass media. However, you can find this herbal supplement to address your asthmatic conditions well. This 100% genuine herbal product will take away the asthma forever, prevents allergies and strengthens your lungs.

You might wonder if this herbal product is a miracle cure. You might wonder if this is the magic pill for asthma. It is not. It is only an Ayurvedic herbal product. It is prepared according to strict Ayurvedic guidelines. This product will work on your respiratory system. It strengthens the tiny air sacs of your lungs. It also gives better protection against pollen allergies, dust allergies and allergies due to climate changes.

## **Resproma – An Ayurvedic Herbal Remedy for Respiratory Allergy and Asthma**

Resproma is an Ayurvedic herbal supplement. Its components regulate antioxidants at optimum levels, especially in the respiratory system. The epithelium, the inner skin of air pipes is kept strong. It also normalizes secretion of mucus. This leads to a state of no-allergy. It also leads to normalization of respiration, preventing further asthma attacks. This occurs due to preventing the over-reaction of epithelium to dust, pollutants, etc. The antioxidants also facilitate immunomodulation, which also is helpful in minimizing allergic effects.

### **How Allergy Occurs**

Allergy is a kind of immunologic response to an allergen. It is body's natural protective mechanism against harmful substances. It becomes a problem when the body becomes hyper-reactive to allergens like pollen, dust, spores, chemicals, medicines or any other harmless substance, which can cause irritation in allergic persons.

Coughing and sneezing, itching, etc are normal reactions of the body to protect itself from harmful things like smoke, chemicals, etc. When your body's response to such stimulants becomes irrational or abnormal, it is termed allergy.

Resproma is an effective cure against Allergic Rhinitis, Bronchial Asthma, Chronic Sinusitis, Recurrent Respiratory Infections and Eosinophilia.

Resproma herbal food supplement has immunomodulatory functions and works on the respiratory system. It helps in desensitization to certain extent, against the allergens. Thus, the abnormal reactions are minimized and regulated.

Resproma herbal supplement is one effective remedy for asthma and allergies of different kinds. It is 100% herbal and safe for use. It is recommended for adults aged 18 or older.

## **Usage directions**

Take two capsules every 12 hours, in empty stomach, along with one glass of lukewarm water. Don't take any food 60 minutes before or after taking this medicine. In addition, take optimum water throughout the daytime to facilitate faster elimination of toxic wastes from the body.

## **Healing Crisis**

Being a 100% herbal product, Resproma doesn't have any side effects. There aren't any side effects reported till now. However, use of this herbal supplement does come with some healing crisis. This is a brief phase of two to seven days, during which the body undergoes a thorough cleansing process. With the start of taking of this herbal remedy, your body will release toxins accumulated in your body. This may lead to nausea, headache, vomiting, diarrhea, congested nose, muscle pain, headache, fatigue, etc. However, in most cases, such symptoms disappear in a matter of two to three days. Don't stop taking Resproma in a day or two. These symptoms will disappear without any treatments, except maybe resting for a few days. After that, you will experience healthy living.
