ABOUT VEINISH

VEINISH is an Ayurvedic preparation that has been used for more than 250 years and time tested by Chavarcodes Ayurvedic physicians. **VEINISH** has been used for generations and by thousands of people. This natural herbal formula is made without any added chemicals or preservatives.

VEINISH is a holistic herbal formula that works at so many levels and helps many diseases at the same time by enhancing your own system.

Varicose veins of lower limbs are very common in older people, especially in women. In the modern medicine, there is no effective therapy available so far except stripping of the veins surgically and Sclerotherapy, Laser surgeries, Catheter-assisted procedures and Ambulatory phlebectomy etc.

The venous system of legs suffers gravitational pooling of blood and its antigravity strain on the vein walls. This can cause damage to its vessel wall and valves, resulting in tortuous varicose veins. **VEINISH** has the properties to help reverse the said venous changes. Venous thrombosis associated with inflammation of its intimal layer (thrombophlebitis) is reversible. Moreover pedal edema disappears once the venous insufficiency is corrected. Best results for varicose veins, it is recommended to take **VASKO** along with **VEINISH**.

VEINISH sharpens memory and concentration. The neuronal activity is enhanced as **VEINISH** improves blood circulation in the brain. This helps reversal / prevention of neuronal dysfunctions like dementia, Parkinson's and Alzheimer's disease, Epilepsy etc.

VEINISH has positive skin effects. It augments blood perfusion in all layers. Immunoglobulin secretion is more and so infections are kept away. The pigmentation and elasticity of skin is regained to normal. Any ulceration of skin is easily healed with **VEINISH**.

VEINISH can reverse systemic high blood pressure as it relaxes the smooth muscles of arterioles and regains elasticity of the hardened vessels by laying new collagen to the walls.

VEINISH - TRADITIONAL INDICATIONS

1. Varicose Veins
2. Varicose ulcers
3. Spider Veins
4. Peripheral Vascular disorders (T.A.O or Burger's Disease)
5. Pedal Edema - Swelling of the feet and ankles caused by collection of fluid in the tissues.
6. Thrombophlebitis - (throm-bo-fluh-BI-tis), a small blood clot formed inside the lumen of a vein, causing a block in the venous flow and hence swelling down.
7. Systemic Hypertension (essential)
8. **Brain Diseases**
 - Dementia
 - Cerebrovascular insufficiency states
 - Alzheimer's disease
 - Parkinson's disease
 - Epilepsy
9. **Skin Diseases**
 - Eczema of lower limbs.
 - Scleroderma
 - Psoriasis
 - Vitiligo

How it works: -

While taking the food supplements **VEINISH** with **VASKO**, it helps Venous and arterial endothelial fatty deposits dissolved and the damaged valves in veins (failed to hold the blood leaking backwards) get repaired to regain the tensile strength. Fresh collagen fibers are laid down parallel to the old ones and new connective tissue is formed in the valves. The new endothelium grown will contribute the strength enough to have sufficient tensile strength to hold venous blood at compartments against the gravity. In arteries also repair of the endothelium after dissolving the fatty deposits is happening. The same way in lower limb arterial narrowing (Burger's Disease) that ends in gangrene is also reversible with help of **VEINISH** with **VASKO**.

VEINISH and **VASKO** is a non-invasive and safer way compared to the surgical stripping off the varicose vein treatment or modern treatment of intravenous lacer therapy.

VEINISH improves the blood perfusion to the brain as it regains the healthy endothelium of vessels to increase its nitric oxide output. This paves the way to increase neuronal metabolism and balanced neurotransmitter state. That helps reversal of brain degenerative diseases like dementia, Alzheimer's and Parkinson's diseases.

VEINISH helps to improve the skin health by stimulating new Glycosaminoglycans and collagen in the layers. And also stimulates immunity with augmented blood perfusion to the skin layers. Once venous flow improves, dependant eczema reverses. This effect helps reversing chronic eczema and scleroderma. Moreover, it helps for wound healing with good quality scar formation in the varicose ulcer and eczematous ulcers.

Side effects: - There are no known side effects.

Recommendations: We recommend taking **VEINISH** alone with **VASKO** for best result.

VEINISH - DOSAGE and DIRECTIONS

1 Capsule every 12 hours at empty stomach with lukewarm water alone with VASKO. Take food after 45 minutes for best result.

VEINISH works with our herbal supplement VASKO for better result. We recommend VEINISH should be taken alone with VASKO.

Take optimum water to enhance elimination of released metabolic toxins from the body. Please read Healing Crisis for more information.

VEINISH - INGREDIENTS

Supplement Facts

Serving Size: 1 Capsule (500 mg each)

Servings per container: 60

Each Serving contains		%DV
Centella Asiatica	200 mg.	*
Sida Cardifolia	100 mg.	*
Embllica Officinalis	100 mg.	*
Hemidesmus Indicus	50 mg.	*
Curcuma Longa	50 mg.	*

* Daily value (DV) not established.

1) Centella Asiatica also known as centella and Indian Pennywort, is a creeping vine found growing in tropical and subtropical climates. It has been used for thousands of years in Ayurvedic medicine to improve memory and maintain a healthy central nervous system, and recent clinical studies support this tradition. When blood vessels lose their elasticity, blood pools in the legs and fluid leaks out of the blood vessels, causing the legs to swell (venous insufficiency). In a study of 94 people with venous insufficiency, those who took centella reported a significant improvement in symptoms compared to those who took placebo. In another study of people with varicose veins, ultrasound examination revealed improvements in the vascular tone of those who took this herb.

Centella protects the blood vessels that supply oxygen to the brain, which helps increase the brain's oxygen supply. Clinical studies have shown that this improves concentration; in one study students test scores improved after taking centella. This plant has also been shown to have a calming effect on individuals prone to anxiety, and may also be useful in individuals suffering from depression.

Studies suggest that centella can be an effective treatment for other skin disorders as well. In one study, participants suffering from scleroderma (a condition that causes tissues to harden) reported that taking 20 milligrams of centella asiatica extract three times a week made their joints and skin more flexible.

Glycosaminoglycans are also needed to strengthen the connective tissue that surrounds the veins of the legs, and numerous studies have shown that this herb is an effective treatment for leg pain and swelling in people that suffer from varicose veins and chronic venous insufficiency (CVI). Additionally, studies have shown that centalla lowers blood pressure, which may be helpful to both people with CVI and people struggling with high blood pressure.

2) Sida Cordifolia is known for its therapeutic effects in regulating the autonomic nervous discharge and positive effects in the hypothalamo - pituitary axis. Phytosterols and Bioflavonoids in the Sida Cordifolia help to increase the antioxidant levels and improve the immune system. Also the vasodilation in arterioles can reduce the arterial blood pressure.

3) **Emblica Officinalis** is known for its abundant vitamin C that is held to withstand even at high degrees temperatures. The role of vitamin c in the collagen formation is inevitable. The abundant tannins in this fruit protect the stomach and liver. The micronutrients like zinc, chromium, ferrous iron, and phosphorus are essential for vibrant health.

4) **Hemidesmus Indicus** roots contain essential oils, coumarin, glycosides, tannins and resins. The phytosterols gives skin a cooling effect and immunocompetence. It is soothing to brain and gives relaxing effect. Blood pressure lowering is an added effect.

5) **Curcuma Longa** - The yellow pigment in the rhizome has abundant anti-oxidants and bio-flavones. It is anti-cancer and is important in the brain neuronal metabolism. It can help the liver in detoxification. Curcumin is the major ingredient.

VEINISH - TESTIMONIALS

VARICOSE VAIN AND HIGH BLOOD PRESSURE

I am 42 years old female, was suffering from high blood pressure with varicose veins both legs. I was on medication for high blood pressure with my G.P. and was controlled. But for the varicose veins there were no relief despite of my doctor's medicines. He advised surgery for it that I was prolonging with it. One of my relatives advised to try with **VASKO** and **VEINISH** that was available in the internet. I ordered online for 3 months supply and started taking the herbal supplements. Three weeks later I have noticed my varicose veins were

started subsiding which was unbelievable. After 2 months I have done my blood work and my doctor asked me why my high blood pressure is reduced to the normal? I told him about **VASKO** but he never commented. The second month on I could use the morning footwear in the evening also as the swelling in the foot was reduced. My doctor recommended me to stop the high blood pressure medication after three months. Now I can walk and stand for long time. Thanks to the company for the wonderful herbal products. I am still taking **VASKO** and **VEINISH** because I don't want to take any more chemical medicine or surgery.

Susanna

BLOCKED ARTERY

I was diagnosis with Coronary artery blockage. Blood cholesterol, triglycerides were high. I had problem walking for a long. I was advised bypass surgery after angiogram. The same time I was looking for an alternative to the bypass. However, my friend who used a herbal supplement introduced me **VASKO** and strongly recommended me to try it out. In the internet I saw the website and placed an order. In the website I saw another

product called **VEINISH** that helps opening the blocked artery. I had an email consultation with the herbalist at the website and he recommended me to take **VEINISH** alone with **VASKO** for three months.

Within 3 weeks of taking both the supplements I could notice lots of changes in my total health. I had strength to walk much better and could even get on to few stairs without symptoms. I was getting better day by day. I placed another 3 months order after the first three months.

Since after the first 3 months, I never experienced any discomfort, chest pain or breathing difficulty. After 6 months time I went to my doctor for a checkup. My doctor was really astonished to see my improvements. The results of my blood work were 90%

normal. The bad cholesterol came down, good went up. Triglycerides were normal.

My doctor wants to do an angiogram but I requested him to hold for another 3 months. Still I am continuing **VASKO** and **VEINISH** and looking forward for an angiogram after 2 months.

The herbs you supplied are worth the money I paid. I am really grateful to the company. Thank god!

VARICOSE VEIN

I am 43 yrs old female with large varicose veins of right leg and smaller in the left leg. My doctor suggested for laser surgery for varicose veins. I had spider veins in my left leg too.

My officemate told that her neighbor totally cured of her varicose veins without surgery using a herbal formula brought online. Next day she gave me the website address and in the office itself we could see it. I

contacted the company and they advised me to take **VEINISH** and **VASKO** for six months. Initially I was a bit skeptical and wanted to see the result before I order for several months supply at first. I have ordered both the herbal supplement for one month.

After 2 weeks it knocked my socks off. The tortuous veins I had started disappearing. I just can't believe it. I placed my second order for 3 months. I had very little marks left by end of the next 3 months time. However, the spider veins took more time to vanish.

I am still taking **VENISH** and **VASKO** as the company herbalist advised me to continue for another 3 months.

These herbs are really marvelous! I have recommended the same to many of my friends and relatives about the company that has many other miraculous supplements.

VEINISH - HEALING CRISIS

The healing crisis is a process in which the body undergoes an intense period of cleansing and rebuilding. It is called a "healing" crisis because the body is healing and becoming stronger. It is referred to as a "crisis" because the symptoms can be dramatic and rather unpleasant during this time. Because the healing crisis is accompanied by unpleasant symptoms it is often mistaken as a sickness. Common symptoms include nausea, diarrhea, sinus congestion, muscle aches and pains, headache and fatigue. The crisis generally lasts only a day or two. In reality, it is just the opposite. It is a process in which the body is overcoming ill health and becoming healthier and stronger.

Side effects: - There are no known side effects.

WARNING :- This traditional herbal food supplement is derived and time tested by Chavarcode Ayurvedic physicians. Results may vary among users. These statements have not been evaluated by the FDA.
