How it works: The natural carotenes, vitamins, powerful antioxidants prevents tissue oxidation through free radicals. The GLA (gamma linolenic acid) and SOD (superoxide dysmutase) protects nervous tissue from peroxidation. The vitamin in the dried fruits protects cardiovascular system; reinforced by the natural vitamin E. Essential amino acids and omega 3 & 6 fatty acids are good supplements to protect cell membranes and its repair. It helps bowel clearance.

ABOUT BIOTONE

BIOTONE is a 100% natural vitamin, minerals and antioxidants for human body.

Arthrospira Platensis contains a variety of carotenoids which work in synergy as antioxidants, protecting our cells from the damaging effects of free radicals. The two most important carotenoids are beta carotene (which is known to promote cellular health) and zeaxanthin (which is known to promote eye health).

The three medicinal dry fruits Emblica Officinalis, Terminalia chebula and Terminalia bellerika are having abundant bio-vitamins, minerals and antioxidants.

Vitamin C deficient in the Anthrospira Platensis is compensated with the dry fruits that contain plenty. This bio-vitamin C is amplified inside the human body.

This combination is most ideal in providing sufficient micronutrients necessary to prevent tissue oxidation. This results in preventing aging process and to avoid degenerative diseases like cancer, diabetes mellitus, heart disease, arthritis, dementia, parkinson's disease, high blood pressure, high cholesterol or triglycerides.

TESTIMONIALS

Skin Disorder

An ulcer that had foul smell in my right leg that was resistant to many health treatments! On examination it was found its congenital ichthyosis (dry skin). Doctor said my skin immunity was nil and opportunistic microbes infected skin that went to a state of eczematous dermatitis that was oozing. Dorsum skin of upper limb was also dry.

I was taking prescription medication for more than 6 months but there were no changes in my infection and skin disorder. A friend of mine who used **VASKO** told me to check your website. As I didn't find anything in your website for my conditions, I sent an email to the herbalist. He recommended me to take **BIOTONE** on a high dosage (2-2-2) daily along with my prescription medication. After two weeks I have noticed a tremendous improvement in my leg. Two months later the skin became normal with minimum skin sebum secretion. As per the advice I am continuing two capsules of **BIOTONE** everyday for a period of one year.

I am very happy that God has sent the message about **BIOTONE** through my friend. Thanks you very much for your help.

Dibasic Neuropathy

I am a retired teacher 62 yrs old. I have high blood sugar that was not controlled properly.

Eventually I have developed a complaint of severe burning sensation of all four limbs at its distal ends. My balance in walking also went difficult.

My blood sugar was high at 318 mgm %. My sugar was controlled with changing the medication after seeing a different doctor. But neuritis never improved.

I was looking for an alternative help for my condition. I have seen your website while browsing the internet and sent a request mail to your herbalist. He advised me to take **BIOTONE** for few months. I ordered 3 month supply of **BIOTONE**.

After 2 weeks of taking **BIOTONE** my burnings were reducing. I was almost better after one month using **NUTRALGAE**. The end of the second month I started walking better and I was recovered completely from the burning sensation. Now I am continuing **BIOTONE** for avoiding recurrences.
