

## UMAXIN

### TRADITIONAL INDICATIONS

Urinary Tract Infection (UTI)

Escherichia coli commonly abbreviated E- coli is a Gram-negative rod-shaped bacterium that is commonly found in the lower intestine. E-coli is responsible for approximately 90% of urinary tract infections (UTI). E-coli enter into our urinary tract system and then proceed to multiply and coat the bladder wall. E. coli was discovered by German paediatrician and bacteriologist Theodor Escherich in 1885.

E-coli can live and breed on your hands, on your towel, on door handles, toilet seats. E. coli can thrive with or without oxygen, in almost any conditions, and other studies show that E-coli can hibernate in freezing temperatures almost indefinitely. It can't be killed by washing something in soap.

### Mechanism of Action

The E-coli are attached to the bladder wall and multiply rapidly (E-coli is also one of the most dangerous bacteria that multiply at an enormous rate by doubling the size approximately every 20 minutes) while the natural supplement enters into the bladder and forms a better bond with e-coli than they do with the bladder wall and it is simply washed away during urination. While eliminating the E. coli, UMAXIN does not kill any of our body's cells or interrupt with our natural flora.

Our body produces similar substances but it is not enough to protect us from E-coli. The natural supplement **UMAXIN** helps us eliminating E-coli without any side effect. UMAXIN can be taken by pregnant women and children as it is 100% safe. **UMAXIN** also can be taken as a preventative measure as there are no side effects.

### DOSAGE and DIRECTIONS

For Adults 18 yrs or older, take two (2) Capsules four times daily (every 4 to 6 hours) on empty stomach with lukewarm water.

For best results, no food should be taken 30 minutes before or after taking UMAXIN.

Take optimum water to enhance elimination.

## INGREDIENTS

<b>Supplement Facts</b>		
Serving Size: 2 Capsules (500 mg. each)		
Servings per container: 20		
Each Serving contains	%DV	
Desmodium Gangeticum	25 mg.	*
Solanum Indicum	25 mg.	*
Uraria Picta	25 mg.	*
Tribulus Terrestris	25 mg.	*
Proprietary Blend	400 mg.	*
* Daily value (DV) not established.		

## HEALING CRISIS

There is no Heling crisis.
